## PROGRAM OVERVIEW

This career program is designed to introduce students to a wide array of trade training.

Students will participate in a series of technical training modules that examine the following trade areas:

- Welding
- Carpentry
- Plumbing
- Sheet Metal
- Tile Setting
- Joinery
- Electrical
- Drywall
- Painting
- Document & Plan Reading
- Auto Service Tech **NEW**

**TASK focuses on the development of work readiness skills essential to the workplace.**

**If you answer YES to any of these questions – this program is for you!**

- Are you curious about the trades?
- Would you like learning to be more meaningful?
- Are you looking to be more employable?
- Do you like working with your hands?
- Would you like to learn some new skills to gain employment?
- Do you want to to earn credits toward graduation?
- Would you like to explore a rewarding career pathway?

# CREDITS

TASK students are registered with Camosun College and School District 63. They can use these courses as credits toward high school graduation and to develop a strong foundation for moving into further Camosun College Trade programs.

Students will earn the following five courses toward their graduation:
